

Frequently Asked Questions

Course Title: Agile Project Management for the Federal Environment (Self-Paced)

Course #: 6210

Duration: Self-Paced

Delivery Method: Self-Paced e-Learning

Alternative Delivery Methods: Instructor-led online (synchronous); Instructor-led live classroom

1. What business or organizational need does this course address?

The tenets of Agile have been steadily transforming Federal project management (PM). As a project manager, you must stay current with best practices—that includes Agile. You will learn Agile PM methodologies that apply to the Federal environment, including acquisitions and non-IT projects. You will focus on value, not cost, with the overarching idea that project managers are team leaders who work with the customer rather than against them.

2. Who should attend?

This course is intended for entry- and intermediate-level program and project managers and team members.

3. What will I learn how to do in this course?

By the end of this course, students will be able to:

- Examine the differences between Agile project management and typical project management
- Describe the philosophy and framework of Agile development
- Examine the principles and practices using Scrum as a primary Agile project management process
- Review the unique characteristics of implementing Agile within the federal environment
- Discover what is needed to initiate an Agile project
- Demonstrate what is involved in planning an Agile project
- Examine what is involved when executing an Agile project
- Practice approaches for monitoring and controlling an Agile project
- Explain the steps involved in closing out an Agile project
- Discuss how to implement Agile project management in the federal environment

4. What kinds of activities are included in this course?
