Course Title: Creativity and Innovation
Course #: 4064
Duration: 2 Days
Delivery Method: Instructor-led live classroom

1. What business or organizational need does this course address?

Don’t let your day-to-day responsibilities stifle you! In difficult projects, innovation can flourish when you generate ideas or gain support from stakeholders, balancing your tactical thinking and creative thinking. Not only will you practice a variety of techniques to access creative capacities, but you will also learn to develop persuasive cases to implement new ideas and get buy-in from stakeholders to act on those innovative ideas. You are encouraged to come to class with a problem, challenge, or goal that requires creative and innovative thinking.

2. Who should attend?

This course is designed for individuals at all professional levels seeking to tap into and enable creative thinking for themselves and others in the workplace to do the hard work that innovative problem solving requires.

3. What will I learn how to do in this course?

- Recognize your potential for thinking creatively and enabling innovation
- Generate innovative solutions by discovering and testing creative ideas
- Create an environment that continually fosters creativity and innovation
- Develop a persuasive case for implementing an innovation
